**SANITATION FACILITY
CITY OF AMBLER, ALASKA
PROJECT NO. AN 02-G39**

**PROJECT SPECIFIC SPECIAL AWARD CONDITIONS TO THE
FINANCIAL ASSISTANCE SUB-AWARD**

DATE OF DOCUMENT:
August 2002

A. RELATED AGREEMENTS

This project is being carried out under the provisions of the following agreements:

- Denali Commission Financial Assistance Award Project Number 0068-DC-2002-I21, Amendment #1, dated June 2002
- Memorandum of Understanding Between the Denali Commission and the Alaska Native Tribal Health Consortium for Alaska Rural Primary Care Facilities and Sanitation Facilities Planning, Design, and Construction, dated June 2002

B. SCOPE OF PROJECT

This project will construct a new washeteria in the City of Ambler, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

C. PROJECT FUNDING

Denali Commission funding for this washeteria project has been made available to the ANTHC through a separate Financial Assistance Award (FAA), or amendment to an existing FAA, between the Denali Commission and the ANTHC. It is understood that funds will be transferred in a lump sum and in advance of project initiation. Project activities will not begin until funding is made available to ANTHC.

D. PROJECT MANAGEMENT METHODOLOGY

In conformance with the current Memorandum of Understanding Between the Denali Commission and the ANTHC for Alaska Rural Primary Care Facilities, the following Project Management Methodology option has been selected by the City of Ambler:

Design and construction management shall be accomplished by ANTHC or its Contractor. ANTHC shall take responsibility for all project oversight, technical assistance, and management of the design and construction process.

E. PROVISIONS FOR PROJECT COMPLETION

The following sections from the ANTHC, DEHE Primary Care Facility Sub-Award Provisions Manual (Orange Book), dated April 2002, are incorporated into this Agreement by reference. For the purposes of this Agreement, all references to "Local Participant" shall mean the City of Ambler.

- Section 1, "Provisions for All Sub-Awards"
- Section 2, "Assurances for All Construction Projects (Standard Form 424D)"
- Section 3, "Provisions for ANTHC Management of Local Force Account Labor"
- Section 5, "Insurance and Indemnification Provisions for all Sub-Awards"

CITY OF AMBLER

RESOLUTION NO. 02-12

RESOLUTION 1. CITY RESOLUTION TO RECOGNIZE TRIBAL ENTITY RIGHTS FOR THE
DISPOSITION OF CULTURAL ITEMS AND/OR ANCIENT HUMAN BURIALS, ASSOCIATED
ITEMS, AND ARCHAEOLOGICAL REMAINS

WHEREAS, the City of Ambler, City Council, hereinafter called City Council, is the governing body of the City of Ambler, Alaska, and

WHEREAS, the Alaska Native Tribal Health Corporation, hereinafter called the ANTHC, in coordination with other parties, is providing a grant for construction of sanitation facilities in Ambler, Alaska under ANTHC Project No. AN 02-G39 to provide for the improved health and welfare of the residents of Ambler, Alaska, and

WHEREAS, the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resource identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials, and

WHEREAS, it is the desire and intent of the Ambler City Council to comply with all provisions of the NHPA, and

WHEREAS, there is no known controversy anticipated between the proposed sanitation project and known or reported ancient human burials, associated items, or archaeological sites, and

WHEREAS, the Ambler Traditional Council is the legally recognizes local Native American group for conduction affairs regarding the Tribal relationships for the local Native Alaskans in the City of Ambler, Alaska.

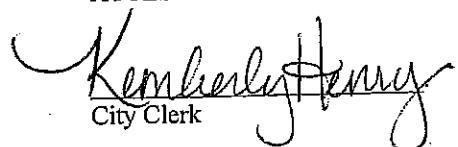

NOW THEREFORE BE IT RESOLVED, that the City Council recognizes the rights of said Tribe to determine the appropriate treatment and disposition of any and all ancient human burials, funeral objects and archaeological artifacts which may be discovered, exposed, or excavated during ground disturbance associated with construction activities required for building or installing sanitation facilities in The City of Ambler, Alaska.

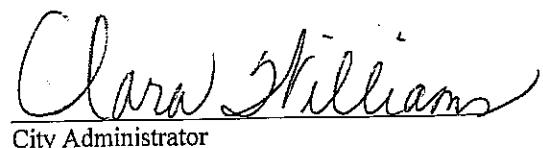

BE IT FURTHER RESOLVED, that any contractor, employee or consultant engaging their services body for the purposes of such construction shall be required, by written statement in (including ancient human remains) subject to the provisions of this resolution to the current duly authorized leaders or representatives of said Tribe and to abide by the decisions of such leaders or representatives in making appropriate disposition of such objects.

CERTIFICATION:

Adopted at a duly convened City Council meeting of the City of Ambler at which a quorum was present on this day 8 of August 2002.

ATTEST:

Kimberly Henry
City Clerk

Clara Williams
City Administrator

RESOLUTION 03-03

A RESOLUTION OF THE NATIVE VILLAGE OF AMBLER TO PROVIDE FOR THE DISPOSITION OF CULTURAL ITEMS AND/OR ANCIENT HUMAN BURIALS, ASSOCIATED ITEMS, AND/OR ARCHAEOLOGICAL REMAINS

WHEREAS: the Native Village of Ambler of the Ivisaappaat Kuuvanmiut Tribe is a duly constituted Native American Tribe recognized by the Federal Government of the United States; and,

WHEREAS: the Ambler Traditional Council is the duly elected governing body of the Ivisaappaat Kuuvanmiut Tribe, authorized to act by and on behalf of its members; and,

WHEREAS: the Native Village of Ambler has inherent traditional and cultural laws and custom that apply to cultural items, ancient human burials, associated items, and/or archaeological remains and anything that ties in to our culture; and,

WHEREAS: the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials; and,

WHEREAS: the NHPA requires Tribes to be consulting parties and contains stipulations regarding the appropriate treatment and disposition of human burials, associated items, and archaeological artifacts; and,

WHEREAS: there is no known controversy anticipated with the proposed project and any known or reported ancient human burial, associated item, or archaeological site; and,

WHEREAS: the excavation activities associated with construction may result in discovery of ancient cultural items (i.e. human burials, associated items, and archaeological artifacts).

NOW THEREFORE BE IT RESOLVED that the Ivisaappaat Kuuvanmiut Tribe expressly stipulates the following conditions for disposition of and control over any and all cultural items discovered on all lands within the traditional, cultural and customary land use boundary during construction of facilities by the ANTHC or other party to facility construction operations.

1. The Ivisaappaat Kuuvanmiut Tribe waive mandatory construction delays other than those immediately necessary to protect any and all cultural resources discovered during excavation as per 36 CFR 800.

2. The Ivisaappaat Kuuvanmiut Tribe has the inherent right and has full responsibility of any and all cultural items discovered during excavation on all lands within the traditional, cultural and customary land use boundary for the Ivisaappaat Kuuvanmiut Tribe.

3. The Ivisaappaat Kuuvanmiut Tribe reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation on lands within the Tribes traditional, cultural and customary land use boundary for the Ivisaappaat Kuuvanmiut Tribe.

4. The inherent claims or rights of the Ivisaappaat Kuuvanmiut Tribe are not diminished by the fact that the land is under ownership by another party, all lands are within the traditional, cultural and customary land use boundary for the Ivisaappaat Kuuvanmiut Tribe fraction of which is within the entire modernly stated Boundaries of the City of Ambler.

5. The Ivisaappaat Kuuvanmiut Tribe has the responsibility to identify any known or reported archaeological site, artifact, or ancient human remains to avoid unnecessary damage to sensitive resources.

Native Village of Ambler

Ambler Traditional Council
P.O Box 47
Ambler, Ak 99786

Phone: (907) 445-2196
Fax: (907) 445-2181

6. An archeologist, retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.

7. Appropriate mitigation measures shall be determined as per 36 CFR 800, and all mitigation shall be performed in conformance with 36 CFR 800.

8. If removal of ancient human remains is necessary, the archaeologist shall remove the entire body. Unless the Ivisaappaat Kuuvanmiut Tribe requests further study of the remains, tests upon or photographs of any ancient human remains will not occur unless specific, separate Agreements have been made with the Tribe.

9. If a modern human burial is discovered, the Village Public Safety Officer shall be contacted to determine if a criminal act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need not be treated as a scene of crime.

10. If the discovery is made on Federal lands Indian Allotment lands, or lands not yet conveyed to the Village for Regional Corporation parties to facility construction operations shall comply with the Native American Graves Repatriation Act, appropriately negotiated with the traditional, cultural and custom laws of the Ivisaappaat Kuuvanmiut Tribe of the Native Village of Ambler.

11. All other inherent rights to claims regarding any and all cultural items discovered on any lands during excavation for or in support of facility construction, not expressly covered in this Resolution are reserved to the Tribe alone.

BE IT FURTHER RESOLVED, that Chief Truman Cleveland, Sr. and Virginia Commack General Manager are hereby appointed the official representatives for the Tribe for the purposes of implementing decision-making actions specified in this Resolution.

Truman Cleveland Sr.
Truman Cleveland, Sr., 1st Chief

ALASKA NATIVE TRIBAL HEALTH CONSORTIUM
Division of Environmental Health & Engineering
1901 South Bragaw Street, Suite 200
Anchorage, Alaska 99508

MEMORANDUM

DATE: August 2002
FROM: Environmental Review Officer
SUBJECT: Washeteria Project, City of Ambler, Alaska
Final Environmental Review, AN 02-G39
TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. The Environmental Review Report has been completed and reviewed with respect to the proposed health facilities improvement project and is attached to this Memorandum.

FINDINGS

The ANTHC uses the Indian Health Service (IHS) environmental review procedures for conducting environmental analyses of all health facilities projects, as outlined in the *Environmental Review Manual*, the second edition of which was issued in January 2000. This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approve a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

BACKGROUND

Ambler is located on the north bank of the Kobuk River, near the confluence of the Ambler and the Kobuk Rivers. It lies 45 miles north of the Arctic Circle. It is 138 miles northeast of Kotzebue, 30 miles northwest of Kobuk and 30 miles downriver from Shungnak. It lies at approximately 67.08611° N Latitude and -157.85139° W Longitude. (Sec. 31, T020N, R005E, Kateel River Meridian.)

The population of Ambler, as of December 2001, according to the Alaska Department of Community and Economic Development, was 309 people.

ENVIRONMENTAL RESOURCES OF IMPORTANCE

This project involves the construction of a new washeteria located next to the proposed water treatment plant that is being planned through a different document planning process. The site of both of these was examined during the 2001 field season by the author of this memorandum and was found to have a negligible likelihood for yielding subsurface cultural resources or human remains. Ambler was settled in the 1960's. no known or reported cultural resources were identified through either pedestrian coverage or in speaking with community members. This finding was reinforced through examination of files and databases at the Office of History and Archaeology. There are no known historic properties at Ambler and no sites are on or eligible for the National Register of Historic Places. The community and IRA tribe at Ambler have signed resolutions regarding the care and treatment of human or cultural remains if any are uncovered through construction activities. Thus, the ANTHC has determined that this project will not affect historic properties. This finding will be forwarded to the State Historic Preservation Officer for concurrence. There are no other environmental resources of importance identified at Ambler that would sustain direct adverse effects as a result of washeteria construction.

SCOPE OF WORK

This project will construct a new washeteria in the City of Ambler, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

SUMMARY

The City of Ambler will be responsible for ensuring that final design plans for health facilities will be submitted to the appropriate federal and state agencies for review and approval. In addition, the City of Ambler, Alaska is responsible for compliance with all applicable federal, state and local environmental laws, regulations, and requirements during all phases of the project, and for obtaining all necessary construction permits.

In any discovery situation of cultural items and/or human remains encountered during the course of the project, the community shall suspend construction activity in the area of discovery, and shall further be directed to notify the ANTHC and the Denali Commission to pursue appropriate steps with the State Historic Preservation Officer for developing an acceptable course of action prior to resuming construction activities in the impacted area.

In the event of any other unforeseen discovery which could change the environmental determination, the community shall be directed to notify the appropriate authority, the ANTHC, and the Denali Commission to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined in the Cooperative Project Agreement, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the community and the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

Chris Campbell

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Page 1

Facility: Washeteria
Project Description: Washeteria Construction

Location: Ambler, Alaska

| Category | Determination (Yes or No) | Basis for Determination (Documentation, see last page) |
|--|------------------------------|---|
| PART I. | | |
| 1. Does this project include construction or lease of new facilities which will total more than 1,080 square meters (12,000 square feet)? (Include portable facilities and trailers.) | No | Printed Materials – The proposed washeteria facility in Ambler, Alaska will total less than 12,000 square feet. |
| 2. Does this project involve the construction or lease of new facilities on more than 2 hectares (5 acres) of land? | No | Printed Materials – Less than 2 hectares (5 acres) will be involved in the proposed Ambler, Alaska facility. |
| 3. <u>Historic Preservation:</u> Will the proposed project construction or renovation adversely affect properties listed, or eligible for listing, on the National Register of Historic places (buildings, archaeological sites, objects of significance)? | No | No historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of the washeteria in Ambler, Alaska. The State Historic Preservation Officer will be consulted for concurrence with this finding. |
| If a property is more than 50 years old and no determination of eligibility was done, the agency <u>must</u> evaluate and nominate the facility. Contact the State Historic Preservation Officer (SHPO) and document the contact and SHPO response. | | |

Facility: Washeteria
Project Description: Washeteria Construction

Location: Ambler, Alaska

| Category | Determination (Yes or No) | Basis for Determination (Documentation, see last page) |
|---|------------------------------|---|
| 4. Will the proposed project construction or renovation violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that generate those items include renovations, new construction, air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, medical centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.) | No | Printed Materials – The proposed project in Ambler, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes. |
| 5. Will the project result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or Local) law or requirements imposed for protection of the environment or public health and safety? | No | Printed Materials – The project will be in compliance with all applicable laws and requirements and will have the appropriated regulatory approvals. |

REFERENCE: National Environmental Policy Act
of 1969/FR Vol. 58, No.3, K.1., K.2.

| Category | Determination (Yes or No) | Basis for Determination (Documentation, see last page) |
|---|------------------------------|--|
| 6. Will the proposed project or construction or renovation result in a conflict with existing or proposed state, federal and local land use plans? | No | Printed Materials – The project site is not zoned. The Ambler, Alaska City and/or Traditional Councils have identified this project as an essential community facility. |
| 7. Is the project significantly greater in scope than normal projects for the area or does the project have significant unusual characteristics? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.11. | No | Printed Materials – The proposed project in Ambler, Alaska is typical in scope in comparison with ANTHC washeteria facility improvement projects in rural Alaska and has no unusual, significant characteristics. |
| 8. Does the project have significant adverse direct or indirect effects on parklands, other public lands, or areas of recognized scenic or recreational value? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.5. | No | Printed Materials – Alaska Wildlife Refuges, U.S. Fish and Wildlife Service. Ambler lies within 10 miles of the Kobuk Valley National Park and the Selawik Wildlife Refuge. This project will take place within established community boundaries and therefore work is not expected to adversely impact the noted Park or Refuge. |
| 9. Is there a controversy with respect to environmental effects of the project based on reasonable and substantial issues? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.3. | No | Personal Contact – Reference the attached resolutions signed by the tribal and city councils from the community of Ambler, Alaska. |

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Page 4

Facility: Washeteria

Location: Ambler, Alaska

| Category | Determination (Yes or No) | Basis for Determination (Documentation, see last page) |
|---|------------------------------|---|
| 10. Does the project establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects? (cumulative impact based on current information) | No | Printed Materials - The washeteria facility construction project in Ambler, Alaska is not anticipated to result in any cumulative impacts that will result in degradation of environmental concerns as outlined in NEPA. |
| REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.6. | | |
| 11. Does the project involve the use, transfer or lease of real property which has been used as a storage for hazardous waste and/or petroleum products or their derivatives for more than one year? | No | Personal contact -- The project engineer, in consultation with the City/Tribe of Ambler, Alaska confirms that real property associated with the washeteria facility project in Ambler, Alaska has not been associated with the use, transfer, or lease as storage for hazardous waste for more than one year. |
| REFERENCE: Comprehensive Environmental Response, Compensation and Liability Act of 1980/FR Vol. 58, No.3, K.10. | | |
| PART II | | |
| 12. Will the proposed project construction or renovation require major sedimentation and erosion control measures? (e.g.; construction or expansion of a parking lot) | No | Printed Material - The proposed washeteria facility project will be constructed in an area which does not affect soil erosion or sedimentation. |
| 13. Will the proposed project construction or renovation adversely affect community noise levels? | No | Printed Material - This project will not affect community noise levels because no blasting will occur and heavy equipment use will be limited to the daytime. |

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

| Category | Determination (Yes or No) | Basis for Determination (Documentation, see last page) |
|--|------------------------------|---|
| 14. Will the proposed project construction or renovation adversely affect community air pollution? | No | Printed Material – The proposed washeteria facility project in Ambler, Alaska will not adversely affect air pollution. The project is located in an unclassified area with no identified air pollution problems and it will have minor to no effect on local air quality. |
| 15. Will the proposed project construction or renovation create a need for additional capacity in educational facilities? | No | Printed materials- The proposed washeteria facility project at Ambler, Alaska will not affect any need for additional capacity in educational facilities. |
| 16. Will the proposed project construction or renovation create a need for additional capacity in health care facilities and for health care services? | No | Printed Materials – The proposed washeteria facility project is not anticipated to create a need for additional capacity in health care facilities and for health care services because it will not affect community population levels. |
| 17. Will the proposed project construction or renovation create a need for additional energy supply or generation? | No | The proposed washeteria is not anticipated to create a need for additional energy generation or supply. |
| 18. Will the proposed project construction or renovation create a need for additional capacity at solid waste disposal facilities? | No | Printed materials – The proposed washeteria facility project will not generate any additional sewage because it will not affect community population levels. |
| 19. Will the proposed project construction or renovation create a need for additional capacity at wastewater treatment facilities? | No | Printed materials – The proposed washeteria facility project will not generate any additional solid waste than at present in Ambler, Alaska, and will not affect the capacity of the community's wastewater treatment facilities. |

|---|------------------------------|--|
| 20. Will the proposed project construction or renovation create a need for/or require a storm water control plan? (e.g.; parking lots. Contact local or state authorities, or EPA to determine if your facility or project is in a regulated storm water area.) | No | Printed materials – The proposed washeteria facility project will be extremely limited in overall surface area, and is not expected to significantly affect storm water control in Ambler, Alaska. Storm drainage will be directed away from the building and parking areas. The project is outside of a regulated storm water area. |
| 21. Will the proposed project construction or renovation create a need for additional drinking water supply? | No | Printed materials – The proposed washeteria facility project will not create a need for additional drinking water supply as the same population will continue to be served as previously. |
| 22. Will the proposed project construction or renovation create a need for additional capacity in transportation systems? | No | Printed materials – The proposed washeteria facility project in Ambler, Alaska will serve the same population in a community lacking a transportation system. |
| 23. Are there other considerations about the proposed project construction or renovation that could adversely affect the environment and/or public health and safety? | No | Printed materials – The proposed washeteria facility project in Ambler, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized. |
